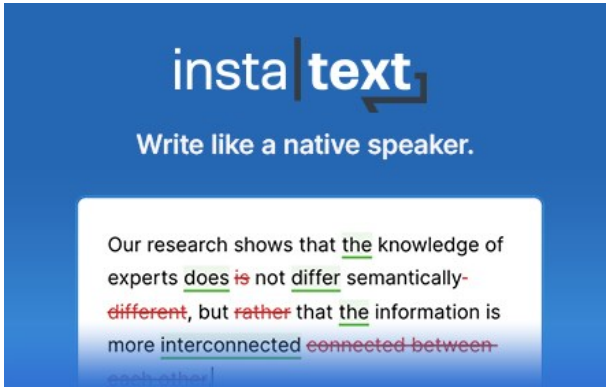
InstaText: interaktivno orodje za izboljševanje angleških besedil s pomočjo umetne inteligence

doc. dr. Matej Guid



20.3.2024

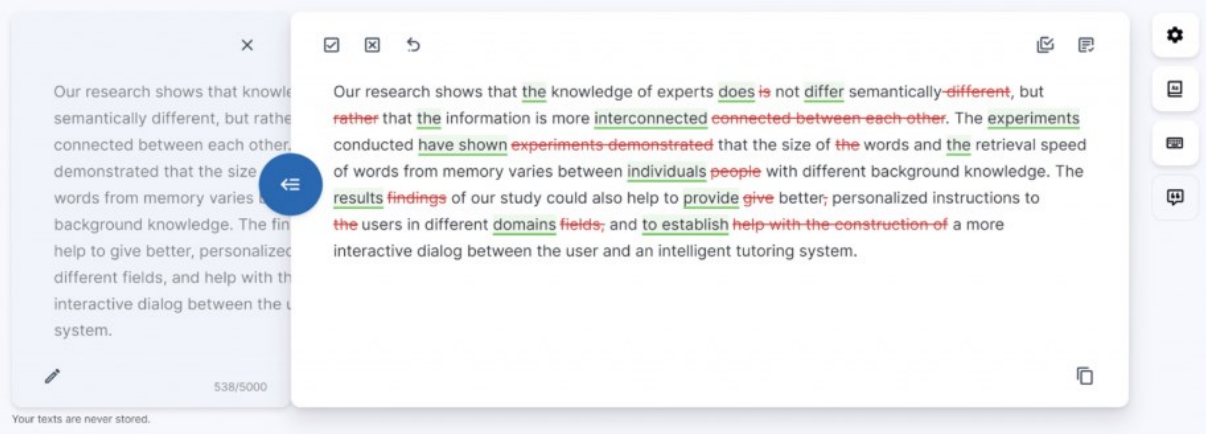
Projekt sofinancirata Republika Slovenija, Ministrstvo za visoko šolstvo, znanost in inovacije, in Evropska unija – NextGenerationEU. Projekt se izvaja skladno z načrtom v okviru razvojnega področja Pametna, trajnostna in vključujoča rast, komponente Krepitev kompetenc, zlasti digitalnih in tistih, ki jih zahtevajo novi poklici in zeleni prehod (C3 K5), za ukrep investicija F. Izvajanje pilotnih projektov, katerih rezultati bodo podlaga za pripravo izhodišč za reformo visokega šolstva za zelen in odporen prehod v družbo 5.0: projekt Pilotni projekti za prenovo visokega šolstva za zelen in odporen prehod.

Pisanje znanstvenih in strokovnih besedil

Kako dandanes poteka učinkovito in uspešno pisanje znanstvenih člankov in strokovnih besedil?

Pregled vsebine

- Faze procesa pisanja strokovnih in znanstvenih besedil
- Učinkovito urejanje in izboljševanje angleških besedil
- Vloga umetne inteligence in digitalnih orodij pri pisanju
- Uporaba orodja **InstaText** z veliko praktičnimi primeri



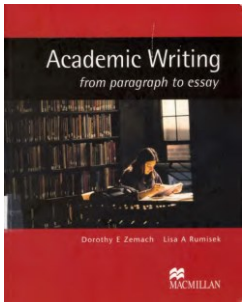
insta|text

Assist. Prof. PhD Matej Guid

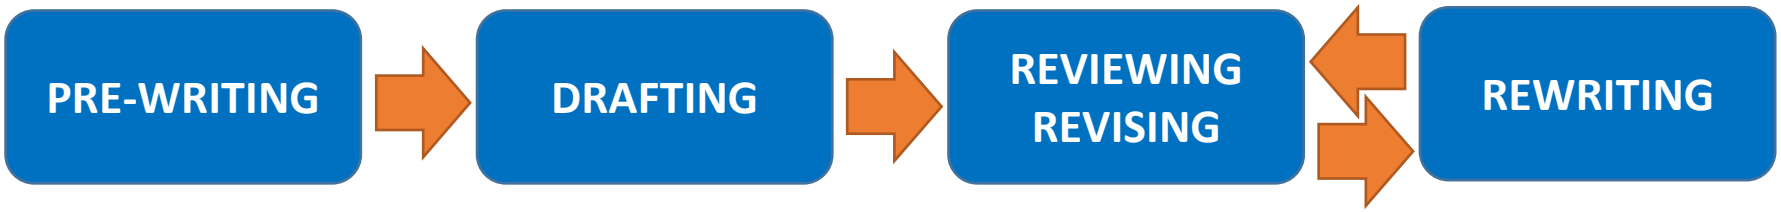
Guid Matej. **Search and Knowledge for Human and Machine Problem Solving**.
PhD Thesis, University of Ljubljana, 2010.
Review by Dap Hartmann: How Can Humans Learn from Computers?
ICGA Journal, Vol. 33, No. 4, pp. 217-218, 2010.

Faze procesa pisanja

- priprava – izbira téme, organizacija vsebin …
- pisanje osnutka
- urejanje – pregledovanje, izboljševanje besedila
- lektoriranje



Academic Writing from Paragraph to Essay
(Dorothy E Zemach & Lisa A Rumisek, 2005)



1: Choose a topic
2: Gather ideas
3: Organize ideas

4: Write first draft

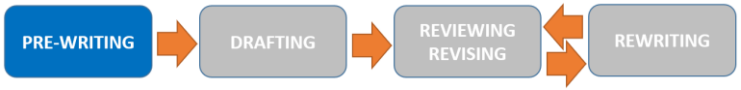
5: Review structure and content

6: Revise structure and content

EDITING

7: Proofread

Priprava na pisanje

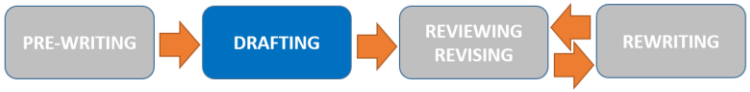


- proces organiziranja misli, zbiranja idej in načrtovanja članka
- opredelimo svojo glavno tezo
- izdelamo načrt članka – *outline*
- zberemo ustrezne vire

💡 Razvoj in izboljševanje veščin učinkovite priprave na pisanje:

- *brainstorming* … miselni vzorci, prosto pisanje
- branje sorodnih člankov

Pisanje osnutka

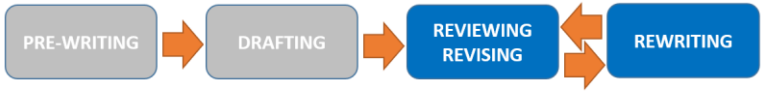


- zapišemo svoje misli
- sledimo načrtu
- ne skrbimo za: ~~izpopolnjevanje jezika, stil pisanja~~
- kreativen proces z jasnim ciljem: kompleten (in ne popoln!) osnutek

💡 Razvoj in izboljševanje veščin pisanja prvega osnutka:

- redno pisanje
- osredotočanje na jasno in jedrnato izražanje svojih misli
- premagati strah pred „slabim“ pisanjem

Urejanje besedila

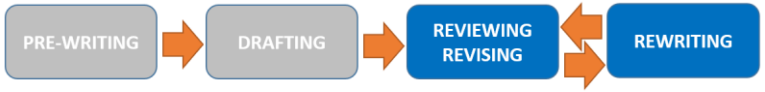


- pregled osnutka, popravljanje argumentov
- ponovno pisanje zaradi jasnosti in berljivosti
- izboljševanje besedila na ravni stavkov in odstavkov
- najpomembnejša faza za sprejem članka!

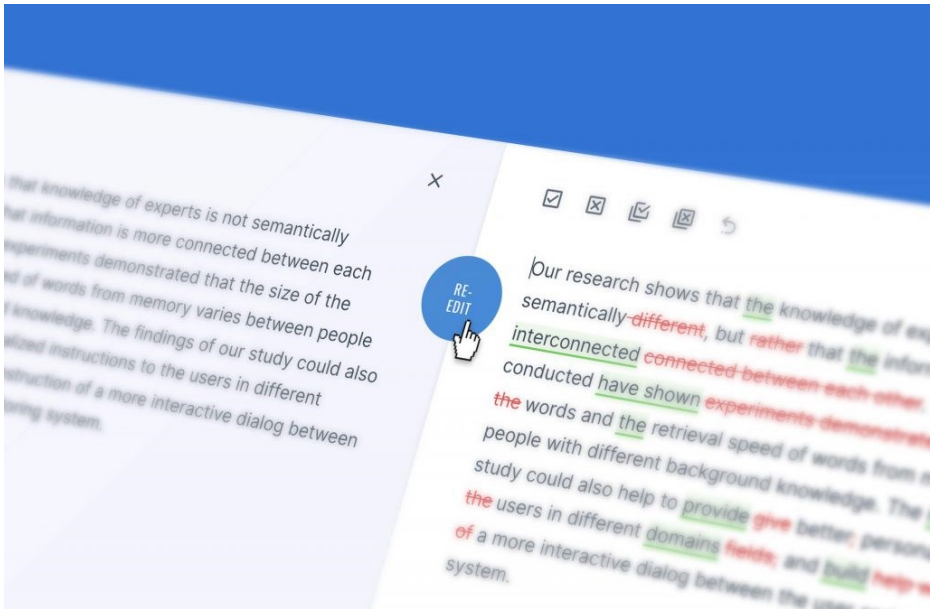
💡 Razvoj in izboljševanje veščin urejanja znanstvenih besedil:

- iterativno izboljševanje besedil
- osredotočiti se na le en odstavek naenkrat
- uporaba inteligentnih orodij

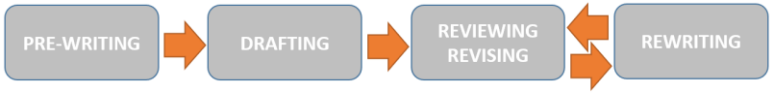
Urejanje besedila: iterativno izboljševanje besedil



- iterativno izboljševanje besedil: hitreje do visokokakovostne vsebine
- izboljšujemo berljivost, jasnost argumentov, nivo podrobnosti…



Lektoriranje



- zadnja faza v postopku pisanja
- preverimo pravopis, ločila, oblikovanje besedila

Izboljševanje veščin lektoriranja:

- članek preberemo v obratni smeri (začenši z zadnjim stavkom)
- osredotočimo se na posamezne besede in ločila

The data ~~datas~~ we collected was ~~were~~ comprehensive.

The impact of climate change is ~~changes~~ ~~effects are~~ widespread.

We found ~~finded~~ a significant difference between ~~in~~ the two groups.

Pisanje znanstvenega članka

Kako naj se torej lotimo pisanja znanstvenega članka?

Predpriprava

- pregled zapiskov
- pregled sorodnih del, iskanje novih sorodnih del
- določitev ciljnega občinstva (namen, revija, …)

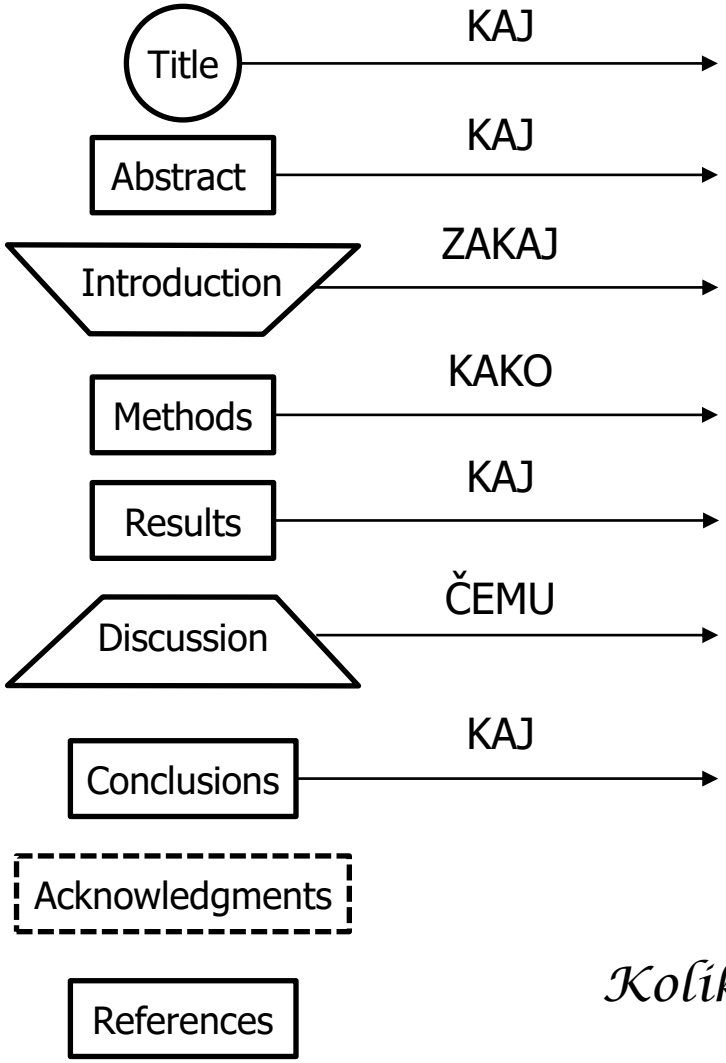
Primarni bralec je recenzent!

Lotimo se pisanja!

- ne odlašajmo: lotimo se pisanja!
- ustvarimo načrt članka – to je enostavno, saj imamo rezultate
  - naredimo seznam vseh slik in tabel
  - razporedimo jih po poglavjih, v pričakovanem vrstnem redu

- ne začnimo z uvodom – to je težko, zato pride na vrsto na koncu
- začnimo z opisom eksperimentov – o tem vemo največ in je zato najlažje
- nadaljujmo z rezultati in diskusijo – pri tem se držimo načrta članka

Struktura članka



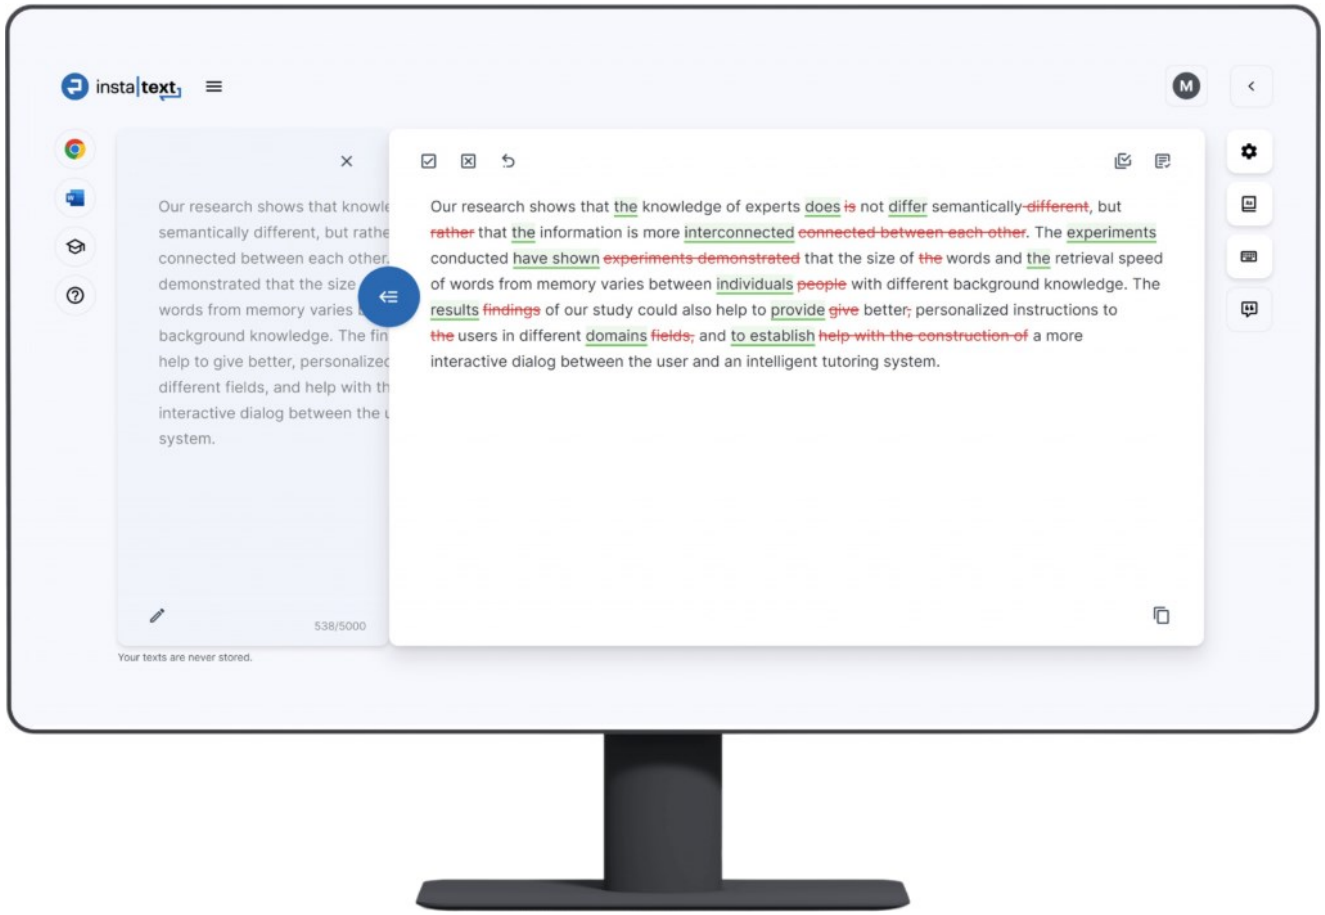
Koliko strani imamo na voljo?

Pisanje osnutka: korak po koraku

1. **Začnimo pisati** – izogibajmo se odlašanju!
2. **Izhajajmo iz načrta članka** – razporeditev grafov in tabel v logičnem zaporedju
3. **Najprej opišimo eksperimente** – opišemo metode, ki so vodile do rezultatov
4. **Nadaljujmo z rezultati in diskusijo** – držimo se načrta članka
5. **Kritično urejanje** – prepričajmo se, da so naši argumenti utemeljeni
   - ne osredotočajmo se še na izboljševanje besedila
6. **Izpeljimo zaključke** – predstavimo sklepe in prispevke k znanosti
7. **Napišimo uvod** – zakaj je bila študija izvedena, njen namen… znanstveno ozadje
8. **Dodajmo in uredimo literaturo** – šele ko je osnutek končan (prej le hitri zapiski)

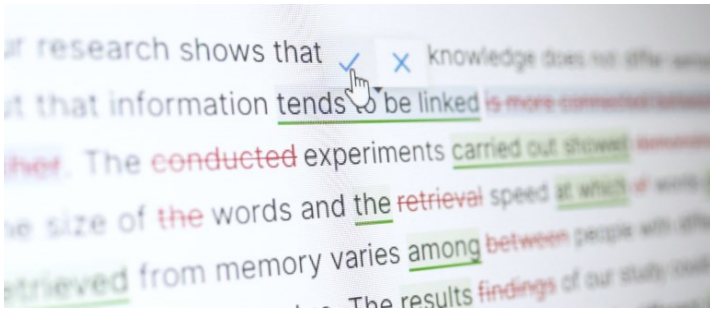
Čas je za urejanje besedila!

„The editing is the secret!“



Urejanje in izboljševanje besedila

- večkrat preglejmo začetni osnutek – iščemo ideje za izboljšave
- pregledovanje, popravljanje in ponovno pisanje – odstavek po odstavku

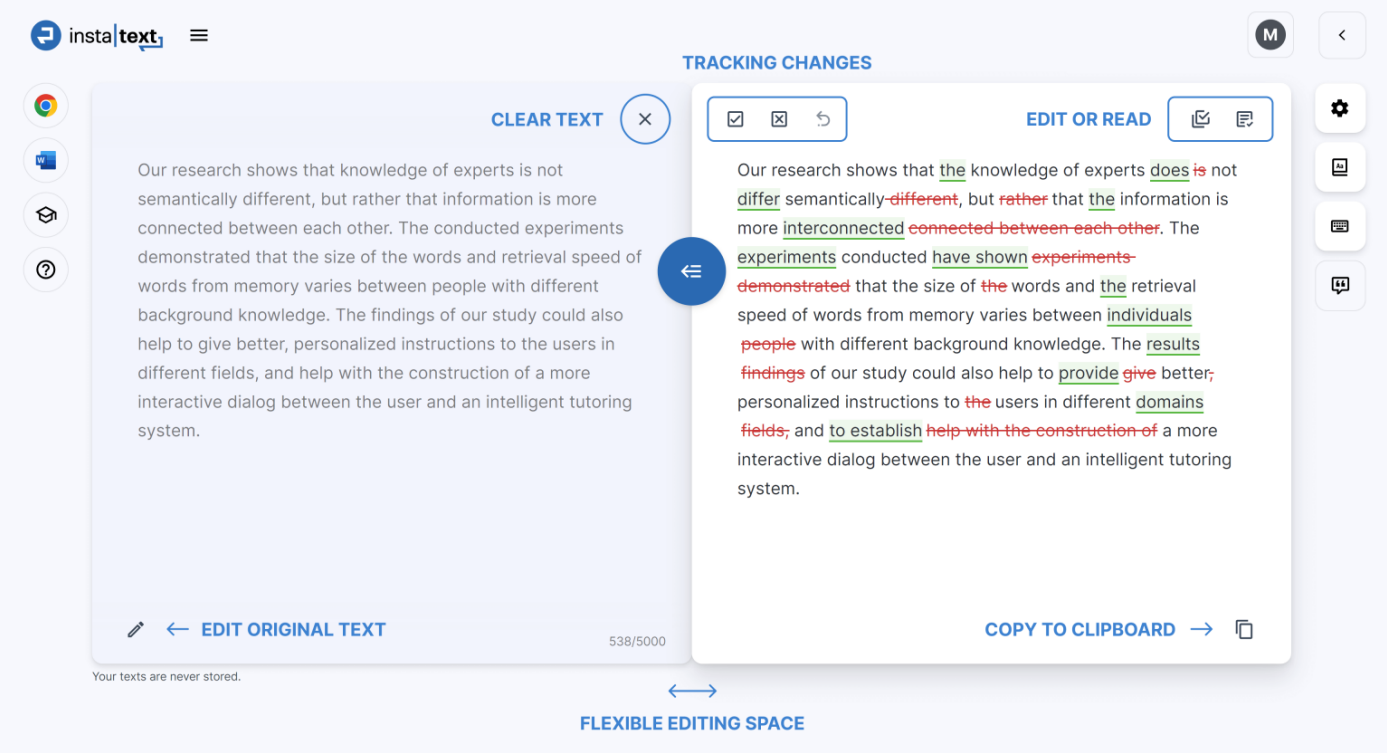


CILJI

- izboljšati strukturo, jasnost in berljivost besedila
- preveriti argumente in izpeljavo zaključkov
- ugotoviti nedoslednosti in odpraviti morebitne vrzeli v utemeljevanju
- učinkovito sporočiti prispevke k znanosti – novost, pomembnost, vpliv

Interaktivno urejanje besedila: ZAKAJ?

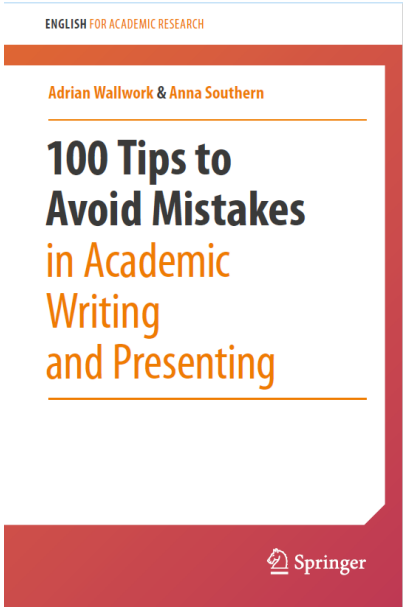
- interaktivnost spodbuja **kritično razmišljanje**
- inteligenten feedback vodi do **izboljšanja veščin pisanja**



Berljivost in razumljivost besedil

Kako pisati berljiva in razumljiva besedila?

Slovnica ali razumljivost besedila?



MISCONCEPTION

"I have surveyed thousands of PhD students about what they consider to be the fundamentals of **writing research papers in English**. While some recognize that readability should be prioritized, most tend to focus on **grammar** and **vocabulary**…

In my opinion, it is a mistake to think that good grammar and appropriate vocabulary are the key to a good paper…"

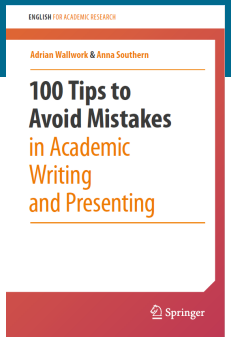
SOLUTION

"You will increase your chances of acceptance of your manuscript if referees and journal editors (i) find your paper **easy to read**; (ii) **understand** what gap you filled and how your findings differ from the literature.

You need to meet their expectations with regard to how your content is organized. This is achieved by **writing clearly and concisely**, and by **carefully structuring** not only each section, but also **each paragraph and each sentence**."

Berljivost in razumljivost: primer #1

Dejstvo, da je naš članek objavljen, še ne pomeni, da ga bo kdo dejansko prebral.



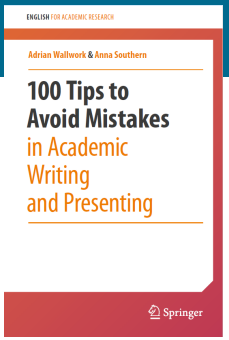
NO!

This would seem to suggest that in countries where racial divisions are still an issue, having achieved a university degree might foster nascent entrepreneurs. *This sheds light on an fascinating future debate in the policy arena*, given that positive discrimination may be not only an issue pertaining to equal opportunities but could promote human resource manager awareness *to cover relevant positions, thanks to spontaneous and pre-established mechanisms led by top-down approaches that* rebuild *backward linkages* and go beyond the conception of "*racial equality*" as a slogan.

„If you can't explain it simply, you don't understand it well enough.“

– Albert Einstein

Berljivost in razumljivost: primer #2



Zmedeno ali nejasno pisanje običajno vodi do zmede pri bralcu. Pišimo jasno in logično.

NO!	YES!
In particular, the East Asian countries should be divided along two groups, the Confucianism countries and the non-Confucianism ones – i.e. China, Korea, etc. in the first group, and India, Pakistan, etc. in the second group. For the experimental field study, data gathering has been undertaken in BRICS (i.e. Brazil, Russia, India, China and South Africa). These countries face such similar tensions and patterns of development as the increasing levels of industrialization as well of population, and the rapid change in lifestyles (Cowan et al., 2014). Despite such similarities, they present different national cultural environments. In particular, BRICS can be divided into individualistic countries – namely Russia and India – and collectivistic countries – namely Brazil, China, and South Africa.	East Asian countries tend to be divided into two groups, Confucianism countries (e.g. China, Korea) and non-Confucianism countries (e.g. India, Pakistan). Data were gathered for Brazil, Russia, India, China and South Africa (BRICS). These countries face similar tensions and patterns of development such as increasing levels of industrialization and populations, and rapid changes in lifestyle (Cowan et al., 2014). Despite such similarities, they have different cultural environments. Russia and India are more individualistic, whereas Brazil, China, and South Africa are more collectivistic.

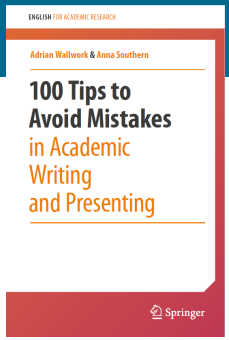
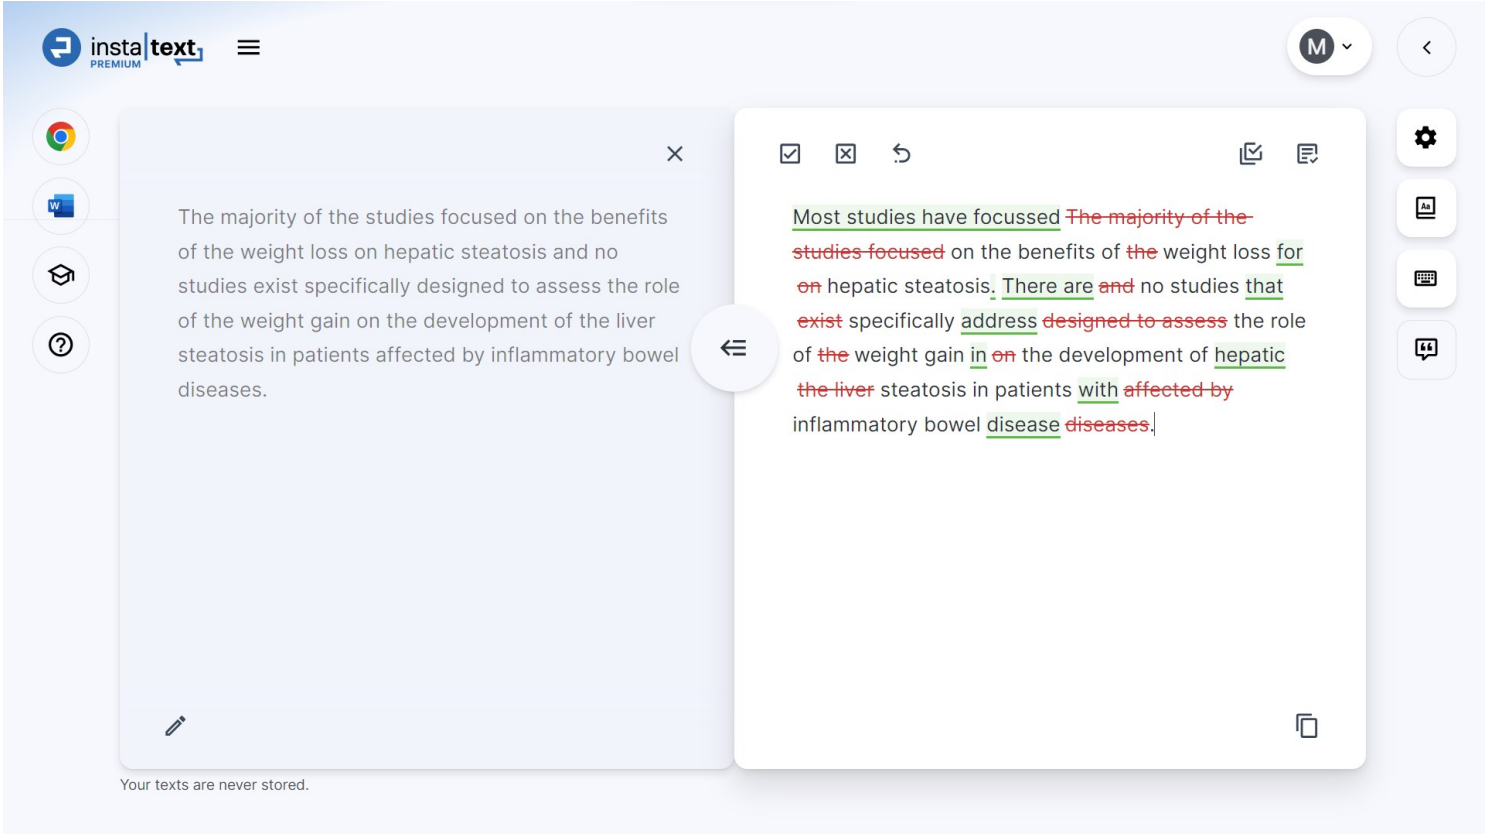
Interaktivno: prenos teorije v prakso ☺

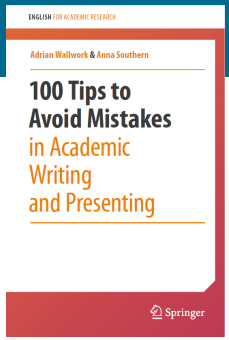
Ko želimo poudariti pomembne informacije, raje začnimo nov stavek ali nov odstavek.

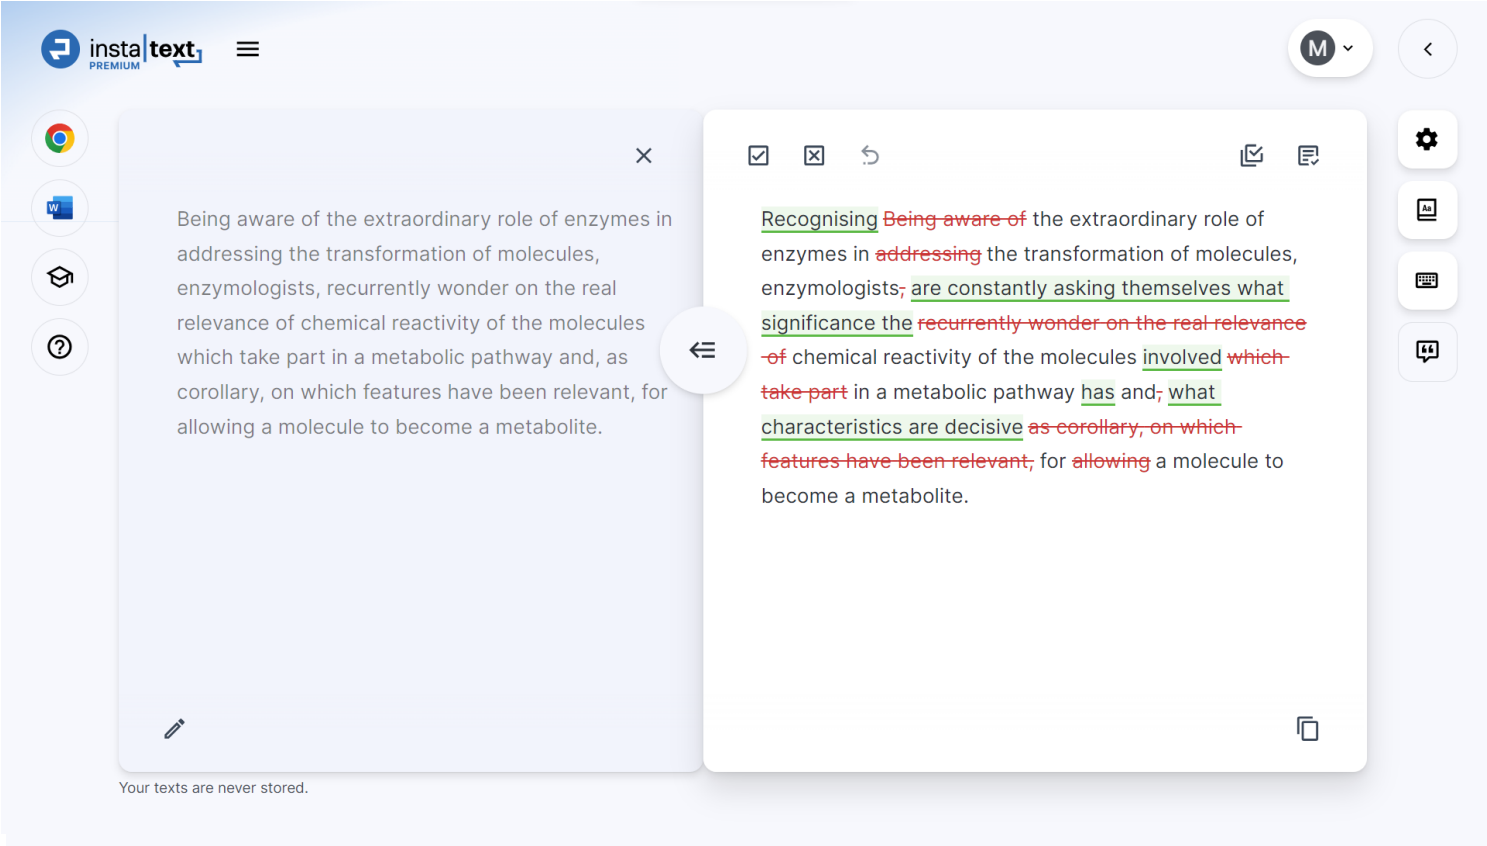




Zakaj je koristno poznati teorijo? ☺

Prve besede odstavka ali stavka naj bralcu takoj dajo vedeti kaj je téma oz. bistvo besedila.





Vloga umetne inteligence in digitalnih orodij pri pisanju

Razvoj digitalnih orodij v raziskovanju, zlasti v procesu pisanja in urejanja, zahteva nove spretnosti in znanja.

- **Kritično razmišljanje** je pomembnejše kot kdajkoli – orodja ne smejo in ne morejo nadomestiti veščin kritičnega razmišljanja.
- Raziskovalci še vedno moramo sami oblikovati izvirna raziskovalna vprašanja, načrtovati študije ali eksperimente, interpretirati podatke in oblikovati zaključke.
- Še posebej pomembno je, da delo **napišemo in uredimo sami** – ne dovolimo, da bi delo namesto nas napisal ali uredil kdor koli.
- Pomembno je, da **razvijemo in ohranimo lasten slog pisanja** in svoj avtentičen glas – umetna inteligenca pa lahko pomaga k izboljšani berljivosti.
- Ob objavi članka moramo biti kot avtorji nanj ponosni.

Razvoj veščin pisanja in urejanja

Zakaj je pomembno obvladati proces pisanja in urejanja?

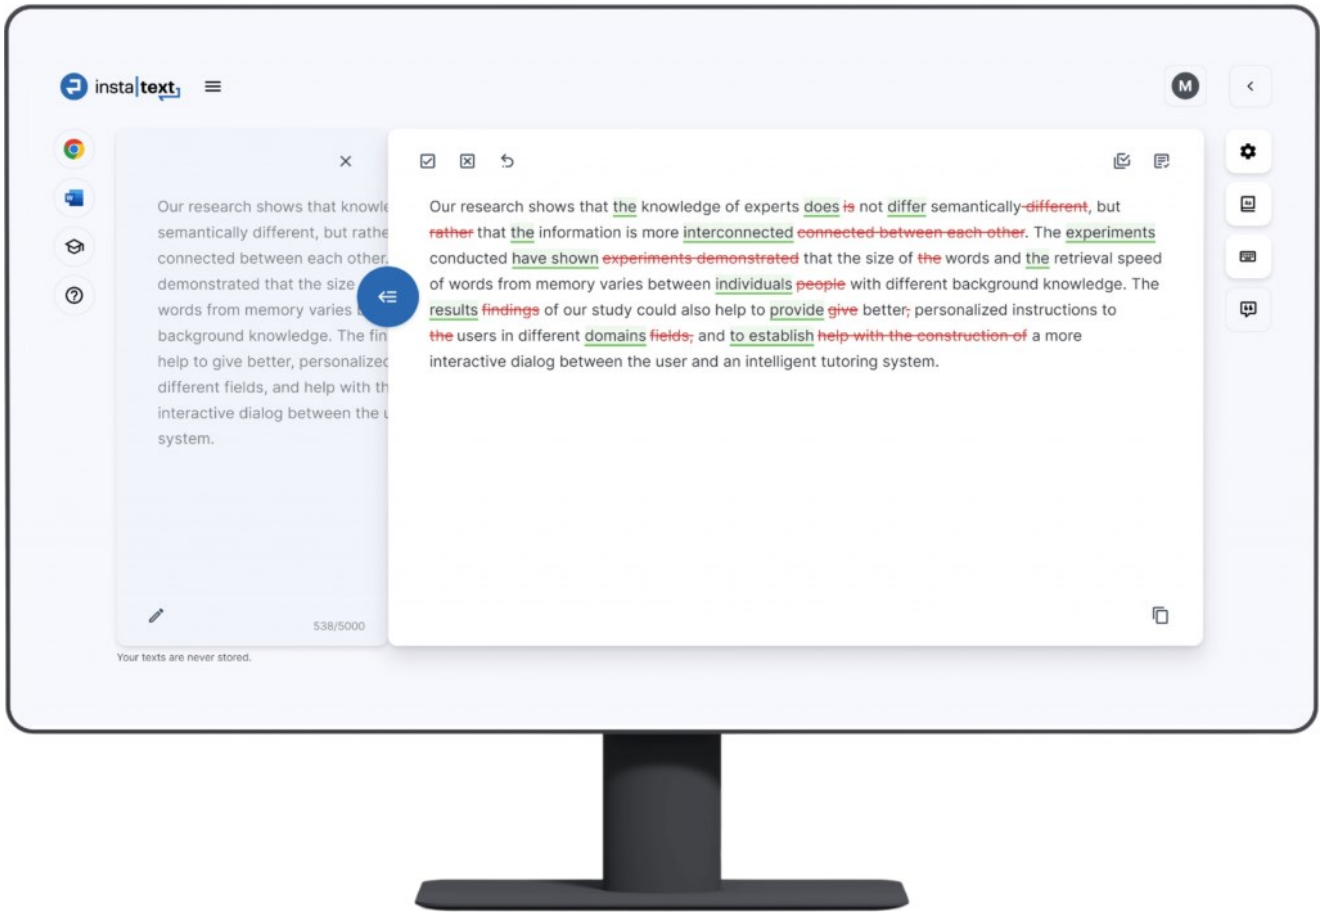
Razvoj veščin pisanja in urejanja

Obvladovanje procesa pisanja, zlasti faze urejanja, je ključnega pomena:

- **Jasna komunikacija** – razumljivost besedil je bistvenega pomena za učinkovito sporočanje vaših raziskovalnih ugotovitev ali zamisli.
- **Verodostojnost in strokovnost** – delo, v katerem je veliko napak, nedoslednosti ali nejasnosti, lahko spodkoplje vašo verodostojnost kot raziskovalca.
- **Logičen potek in argumentacija** – urejanje vključuje več kot le popravljanje slovničnih ali pravopisnih napak; gre tudi za preverjanje logike in toka vaših argumentov.
- **Veščine kritičnega mišljenja** – urejanje lastnega dela vas prisili, da kritično ocenite svoje argumente, dokaze in splošno strukturo vašega pristopa k problemom.
- **Razumevanje bralca** – urejanje pomaga zagotoviti, da je vaše delo dostopno in razumljivo ciljnemu občinstvu.

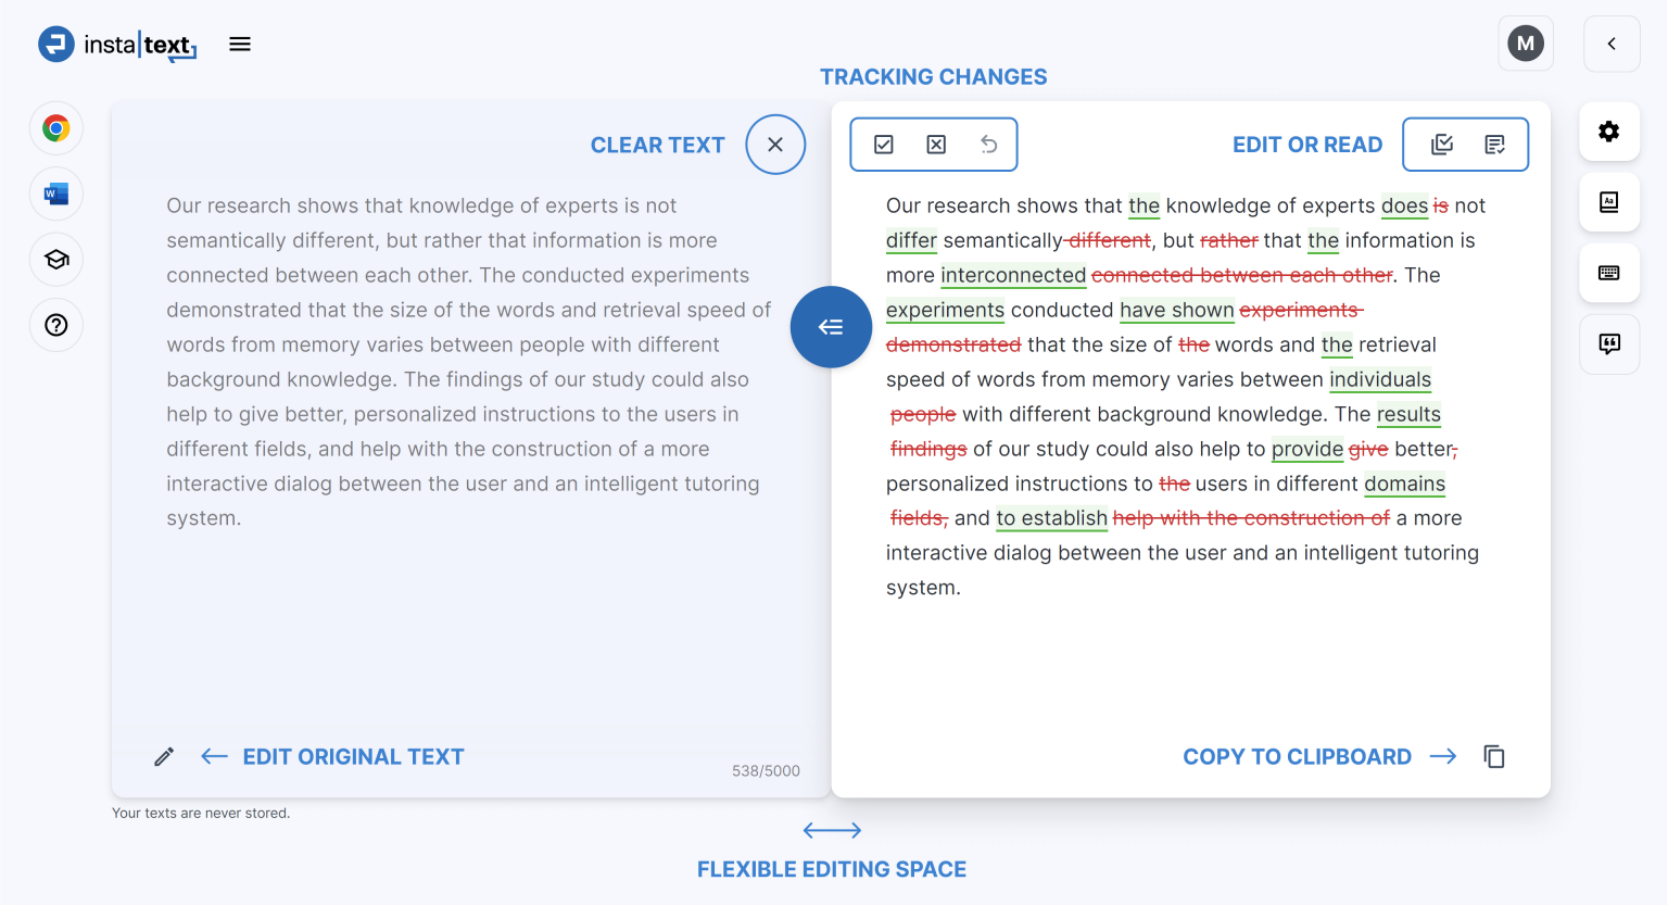
InstaText: orodje za urejanje in lektoriranje člankov

Kako torej dandanes poteka učinkovito in uspešno pisanje člankov?



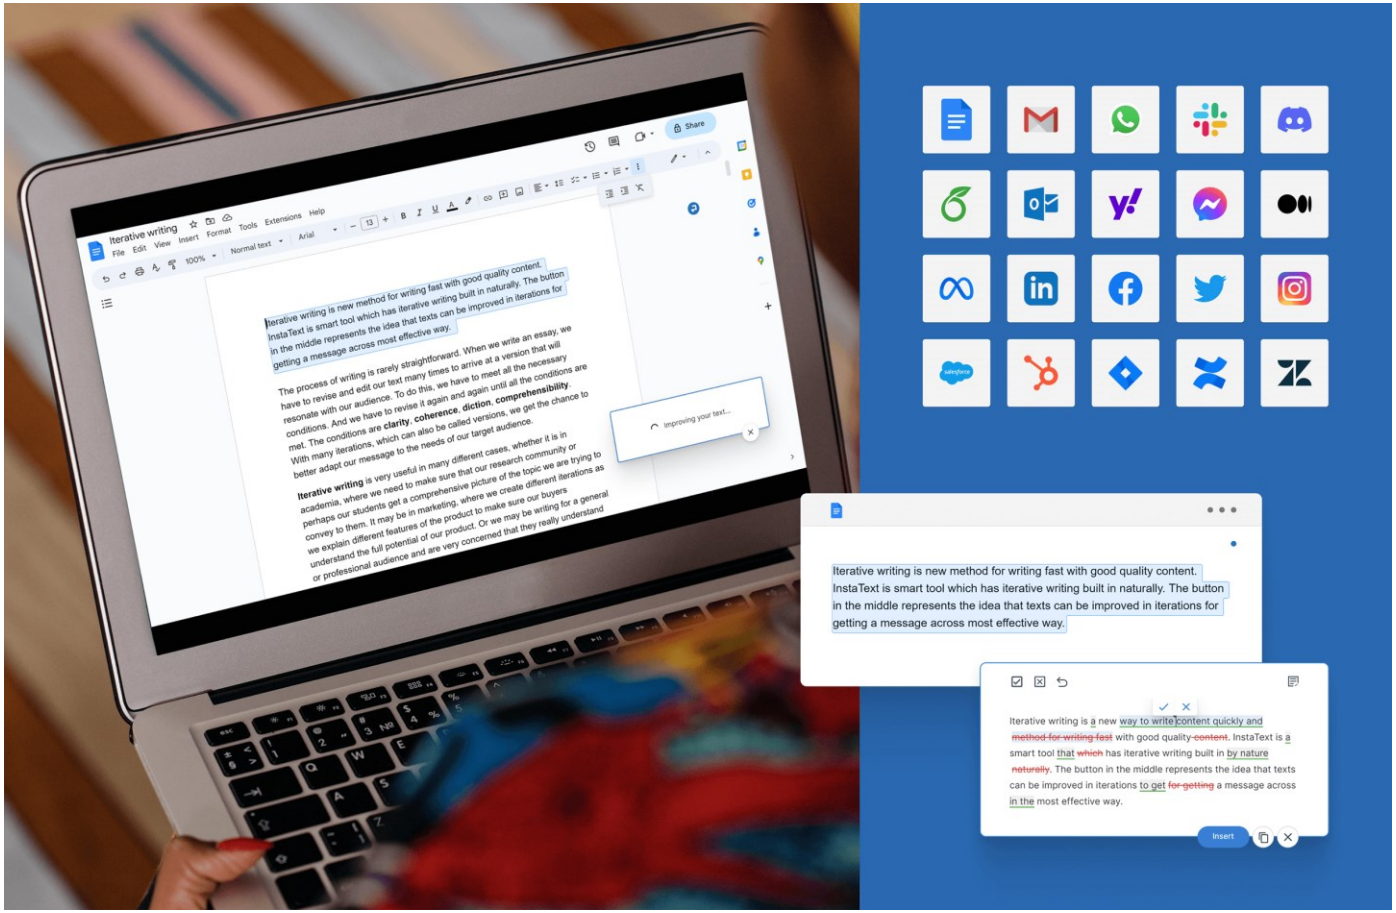
InstaText kot spletni urejevalnik

Uporabite InstaText v brskalniku. Kopirajte besedilo, ga prilepite v urejevalnik, kliknite ***Improve*** gumb in začnite urejati besedilo.



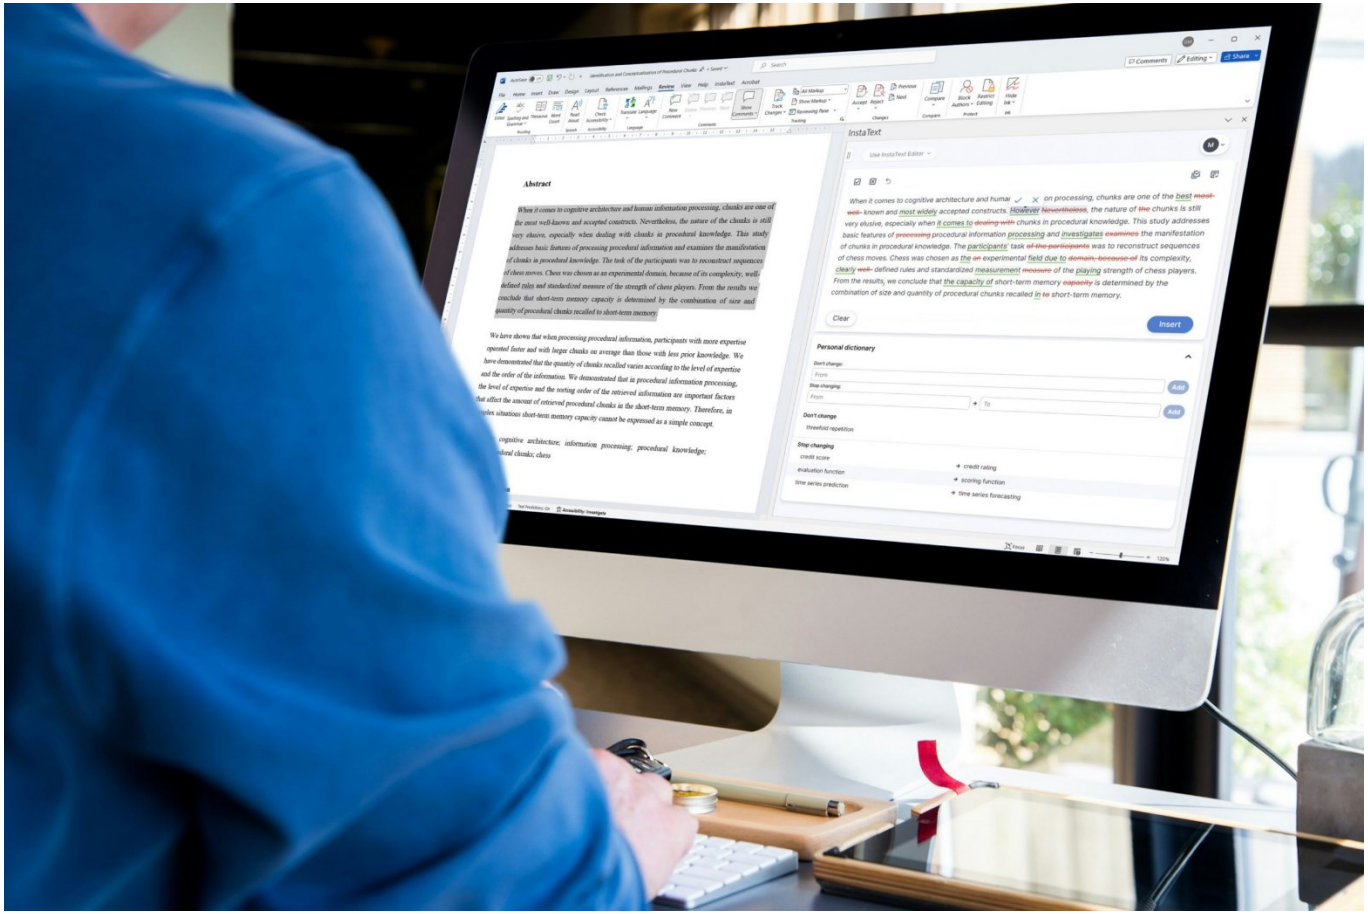
InstaText kot spletna aplikacija

InstaText omogoča integracijo z več kot 20 različnimi aplikacijami.



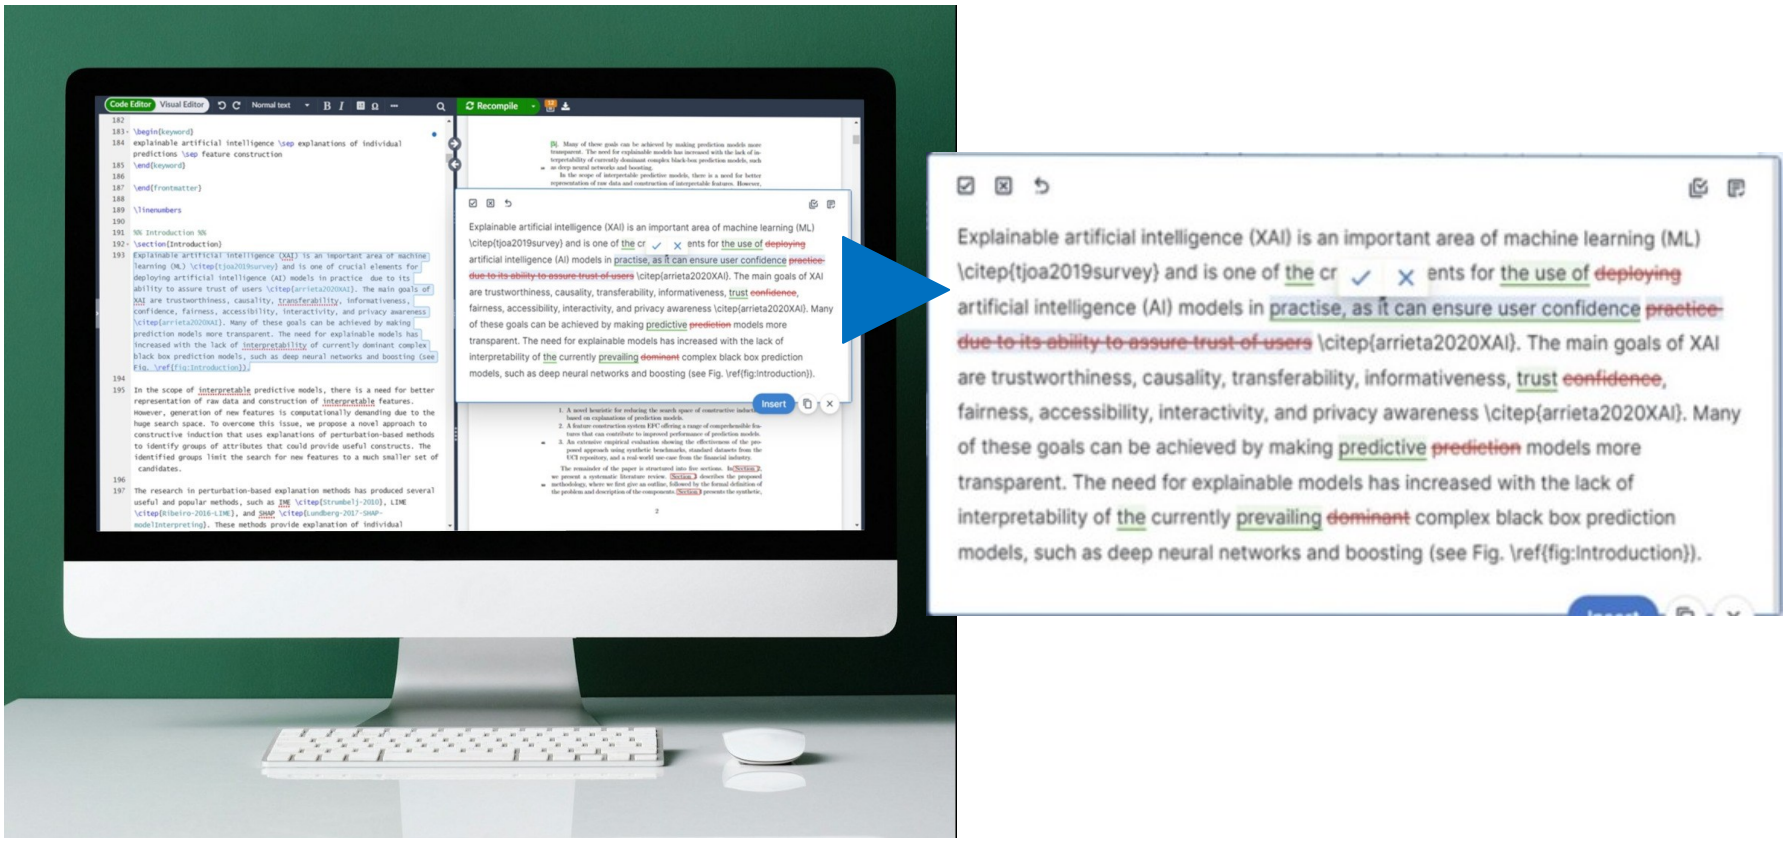
InstaText kot razširitev v Wordu

InstaText je na voljo tudi v orodju Microsoft Word.



InstaText: LaTeX in Overleaf

InstaText podpira tudi LaTeX in je na voljo v orodju Overleaf.



InstaText: primer predlogov izboljšav

Our research shows that the knowledge of the experts does ~~is~~ not differ semantically ~~different~~, but ~~rather~~ that information tends to be linked ~~is more connected between each other~~. The experiments conducted have shown ~~experiments demonstrated~~ that the size of the procedural chunks and the retrieval speed of the chunks varies between people with different background knowledge. We have clearly shown ~~unequivocally demonstrated~~ that the amount of retrieved ~~recalled~~ chunks varies according to knowledge and the order of the information.

Communicate effectively

Write clearly and accurately, produce high quality and efficient sentences.

Boost productivity

Improve your text interactively and quickly get ideas on how to improve your text.

Self-improvement

Make your writing stand out and learn how to write better English.

InstaText: Izboljšave slovnice, ločil in pravopisa

insta|text

The data ~~datas~~ we collected was ~~were~~ comprehensive.

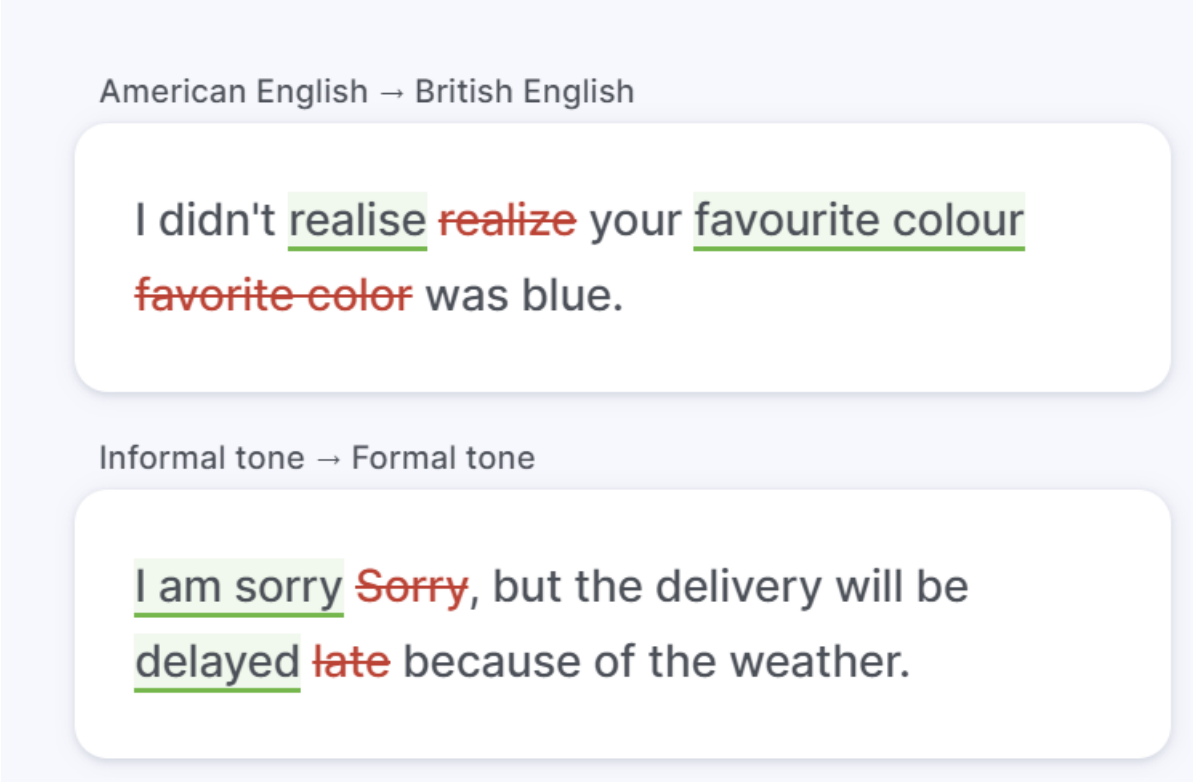
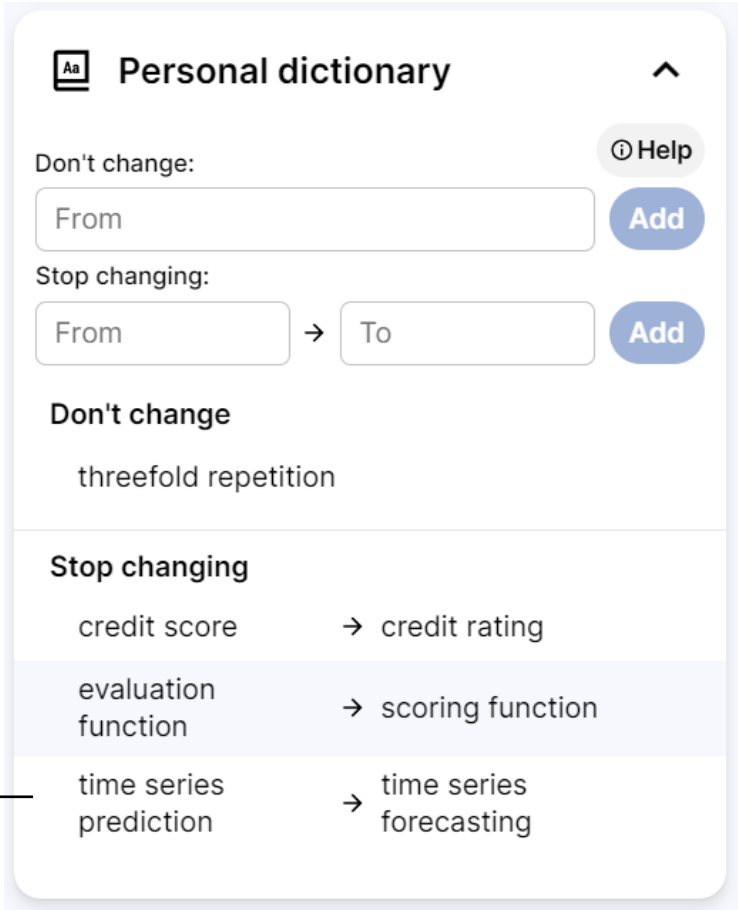
In our study, it was observed ~~It was observed in our study~~ that the ~~behavior of~~ dolphins behaved differently ~~when they are~~ in a group compared to than ~~when they are~~ alone ~~was different~~.

InstaText: Prilagoditev tona in dialekta



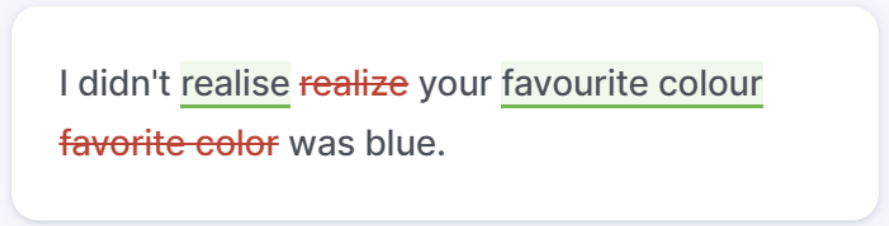
InstaText: Osebni slovar

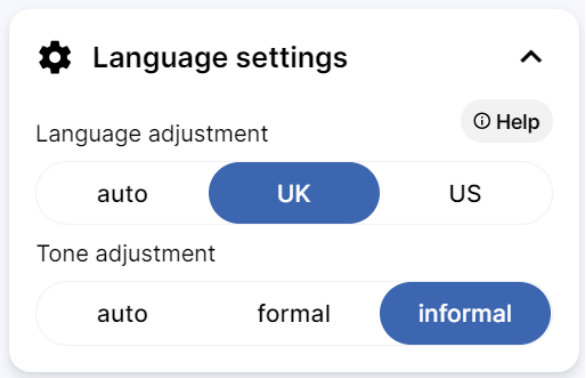
Osebni slovar nam omogoča, da ohranimo besede in besedne zveze, ki so del našega strokovnega jezika ali osebnega sloga.



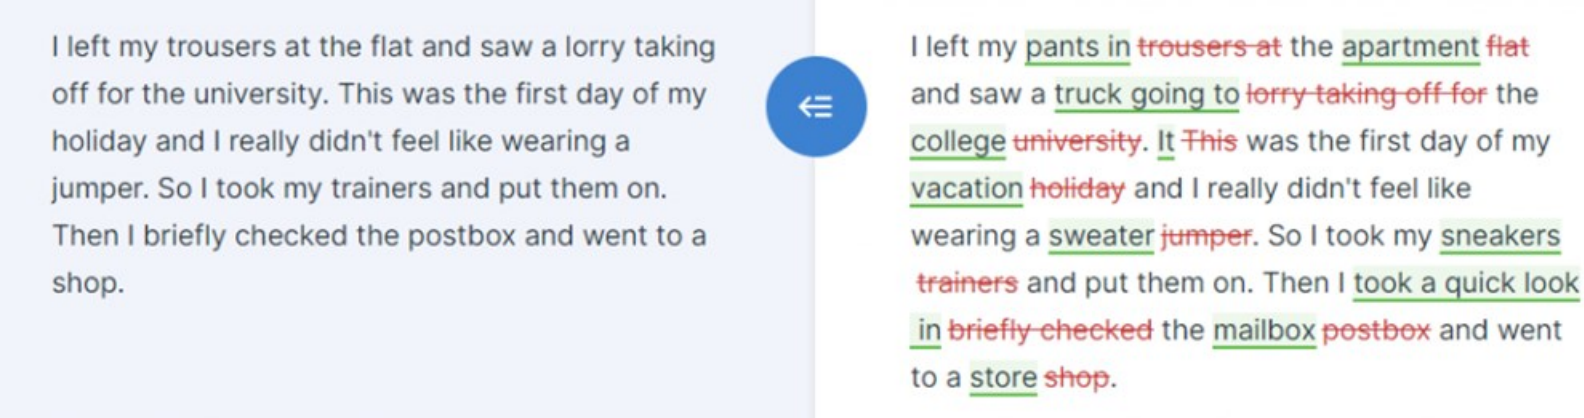
InstaText: Jezikovne nastavitve

Jezikovne nastavitve nam omogočajo prilagoditev angleškega dialekta in tona pisanja.



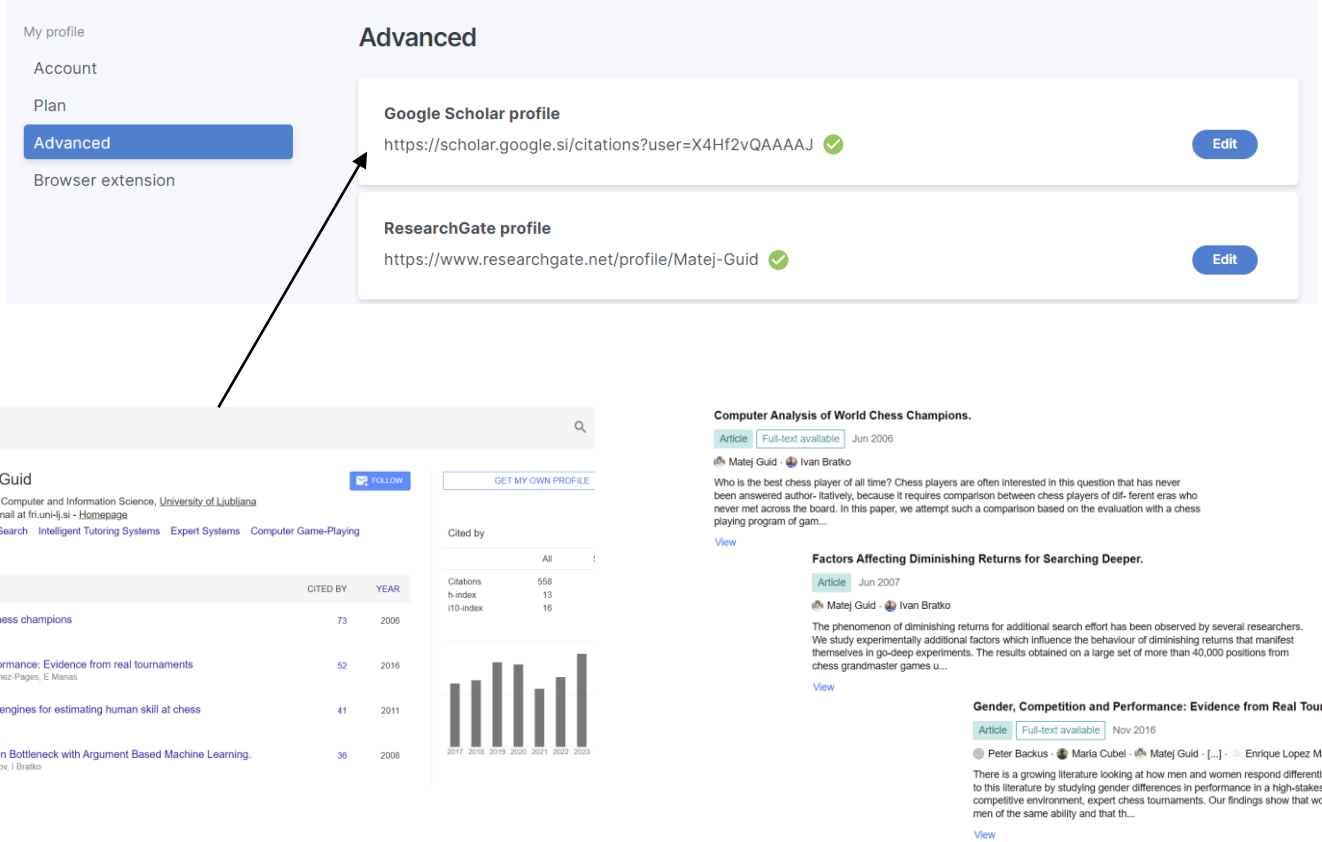


„Write like a native speaker!“



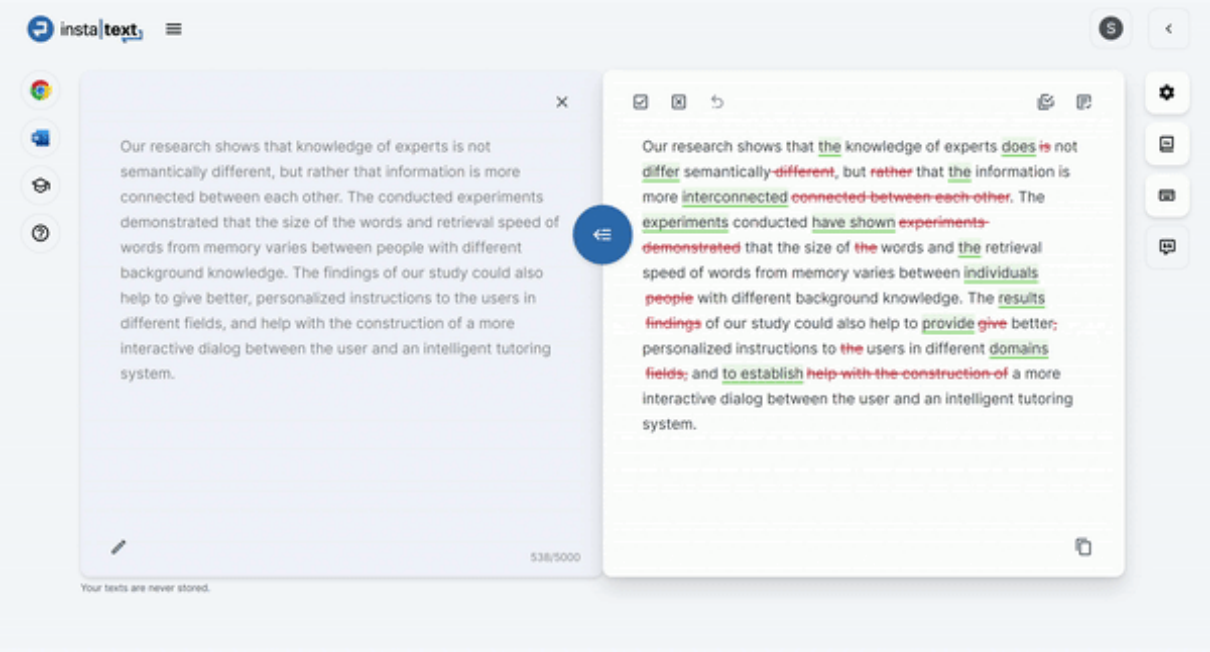
InstaText: Povezava z Google Scholar in ResearchGate

Povežite svoj InstaText profil s profiloma *Google Scholar* in *ResearchGate* in InstaText se bo naučil dodatnega besedišča z vašega interesnega področja.



InstaText: Prilagoditev velikosti okna za urejanje

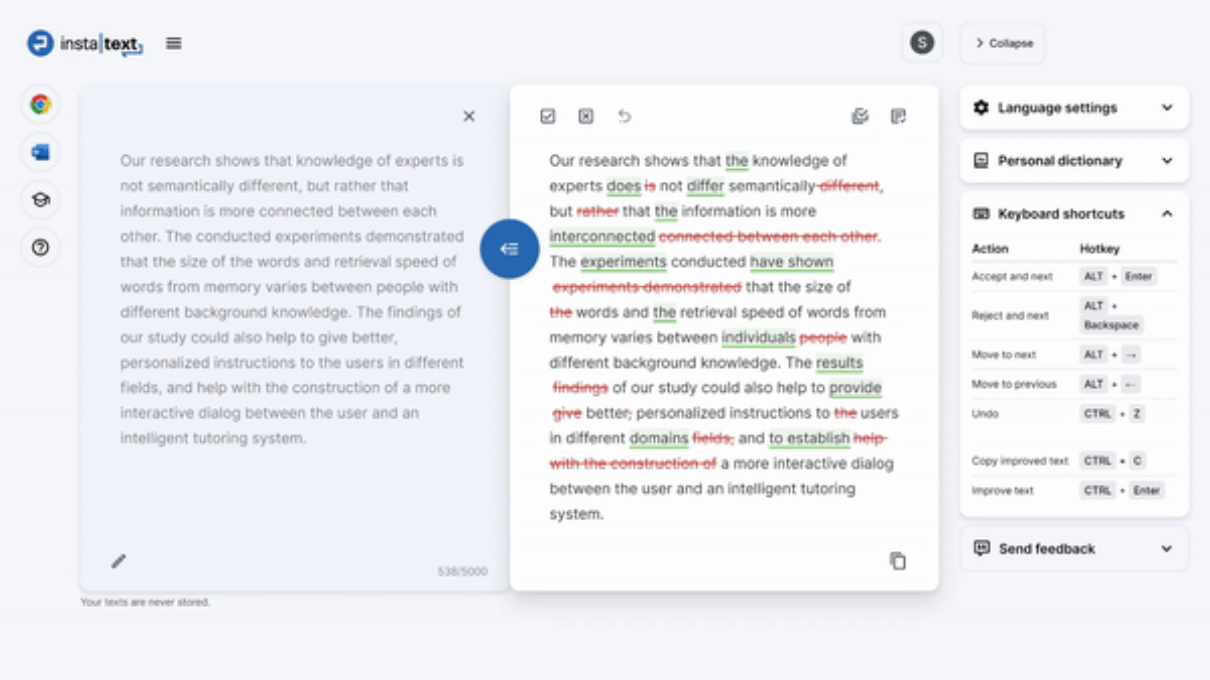
Velikost okna za urejanje lahko sproti prilagajamo in s tem izboljšamo preglednost.



InstaText: Hitre tipke

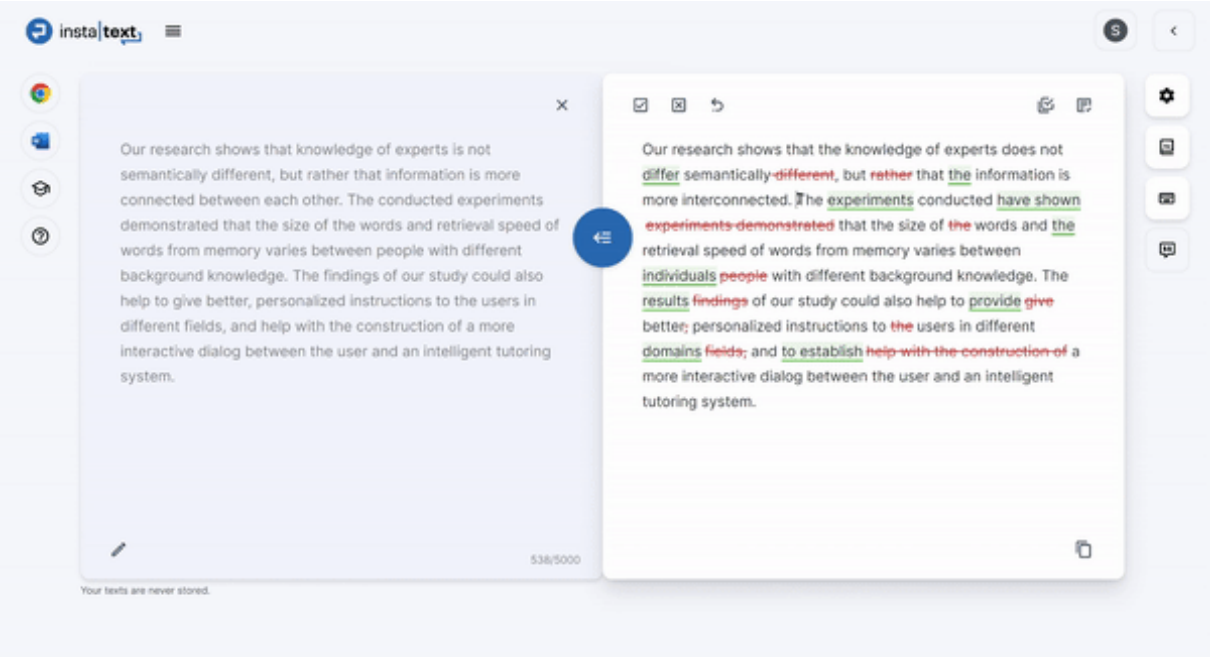
Hitre tipke nam pomagajo še dodatno izboljšati učinkovitost pri delu.

Legenda hitrih tipk je na voljo v meniju na desni strani spletnega urejevalnika.



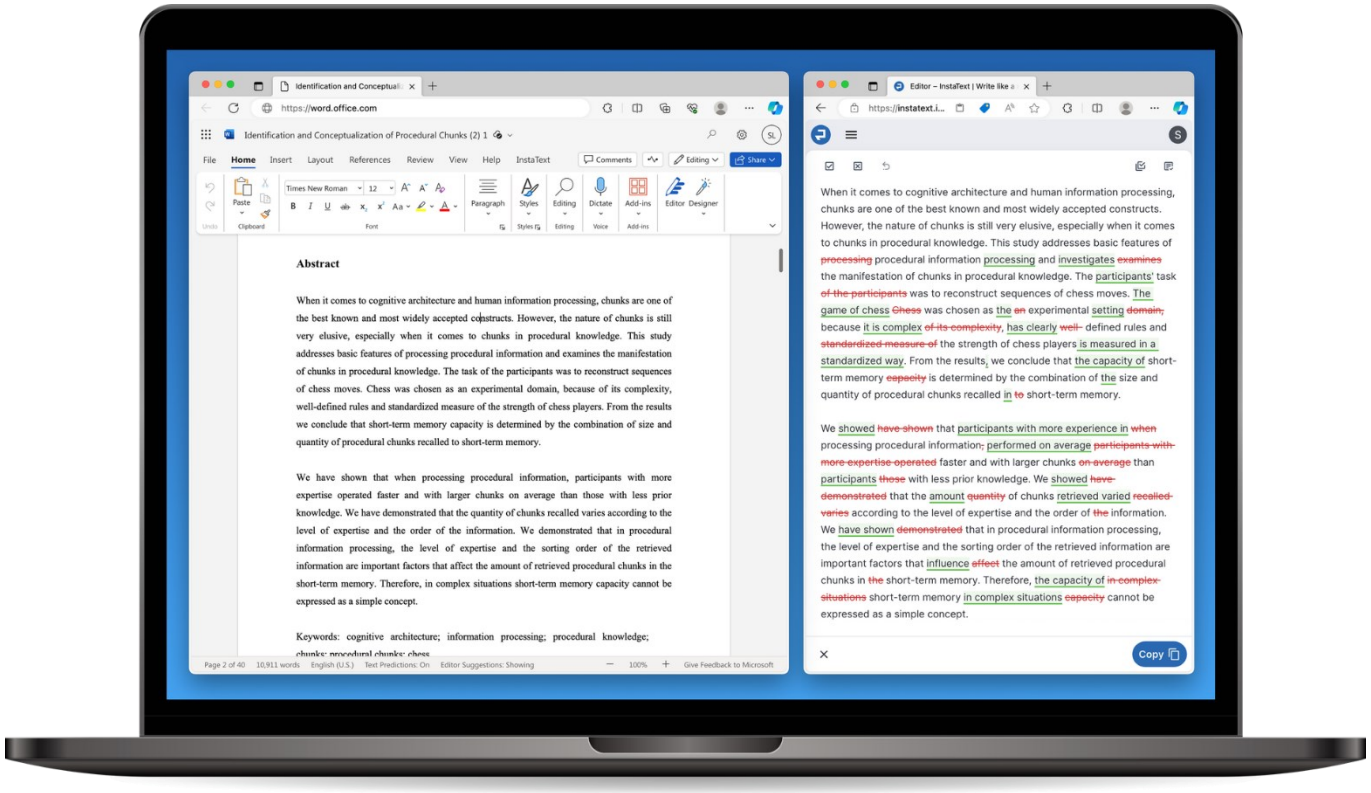
InstaText: Označi besedilo in sprejmi ali zavrni vse predloge

Hitrost urejanja lahko pospešimo tudi z označevanjem dela besedila, kjer vnaprej vidimo, da lahko sprejmemo ali pa zavrnemo vse ponujene predloge izboljšav.



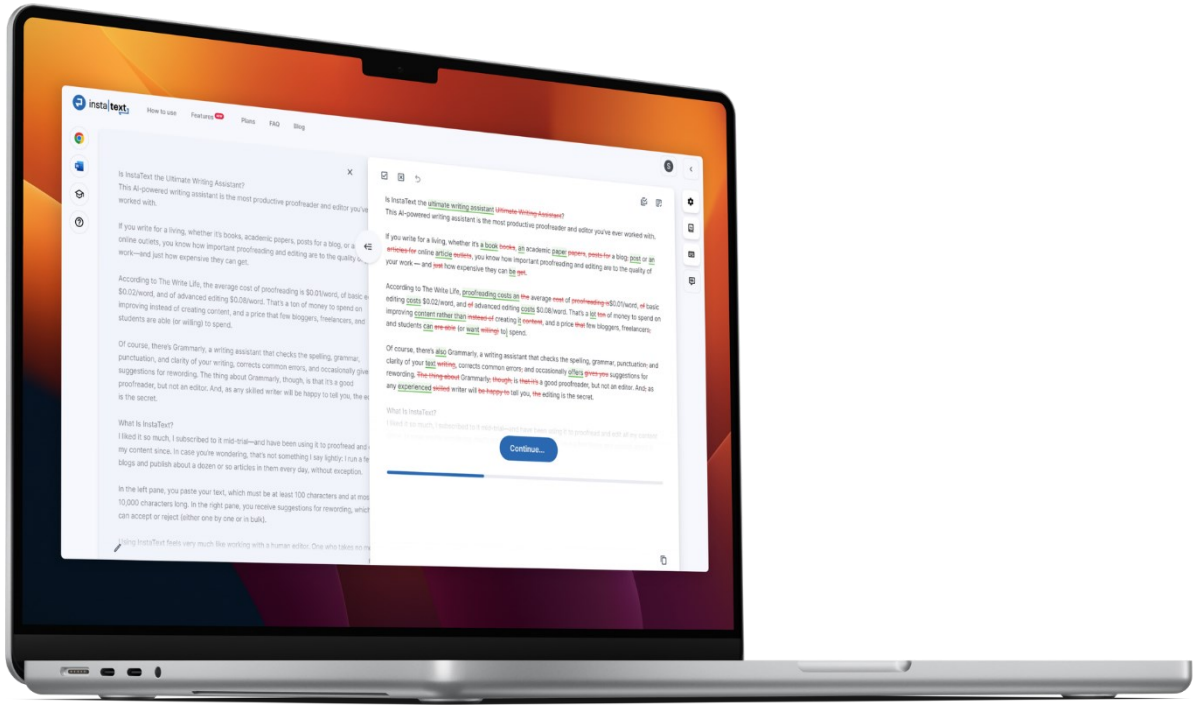
InstaText: Priročna kompaktna razporeditev oken

S pametno razporeditvijo oken lahko InstaText še bolj prilagodimo delovnemu procesu.



InstaText: Izboljševanje besedila po odsekih

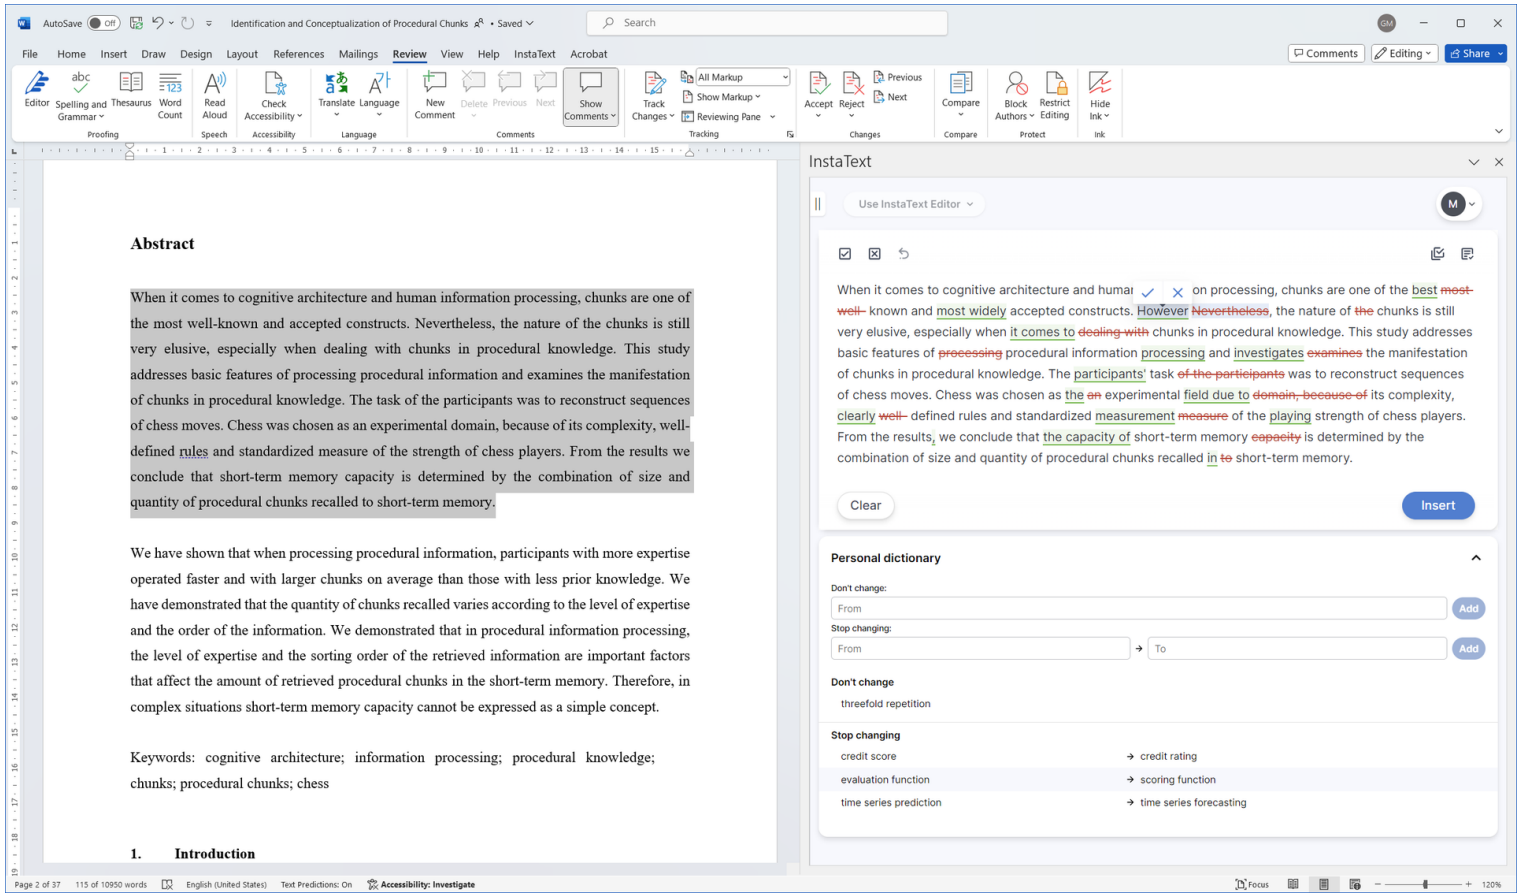
Prilepimo lahko neomejeno dolgo besedilo, nato pa ga izboljšujemo po odsekih.



InstaText se bo sproti učil iz vaših preferenc. Če zavrnete določen predlog, si InstaText zapomni vašo izbiro in ne bo ponovil enakega predloga v naslednjih odsekih.

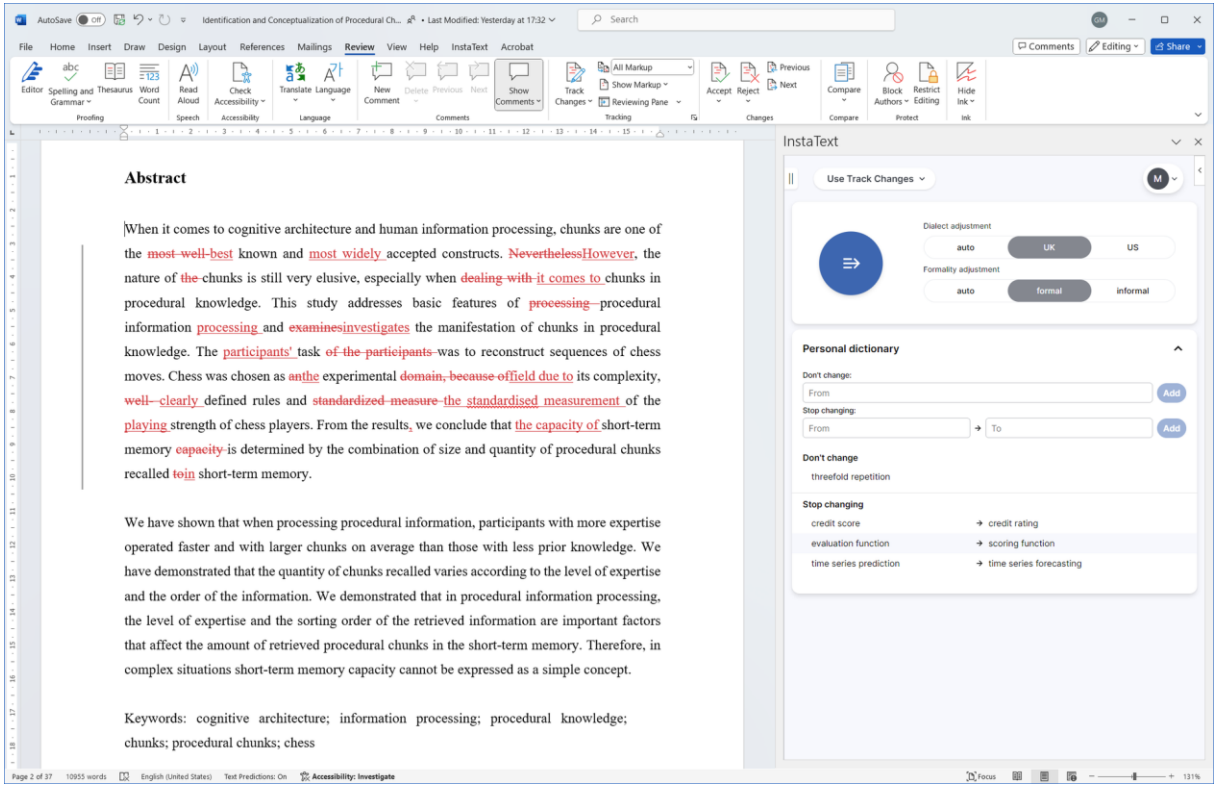
InstaText v Microsoft Word: način uporabe #1

Znotraj orodja Microsoft Word lahko neposredno uporabljamo InstaText urejevalnik…



InstaText v Microsoft Word: način uporabe #2

… ali pa nam InstaText predloge in prikaže s ***Track changes*** funkcionalnostjo.

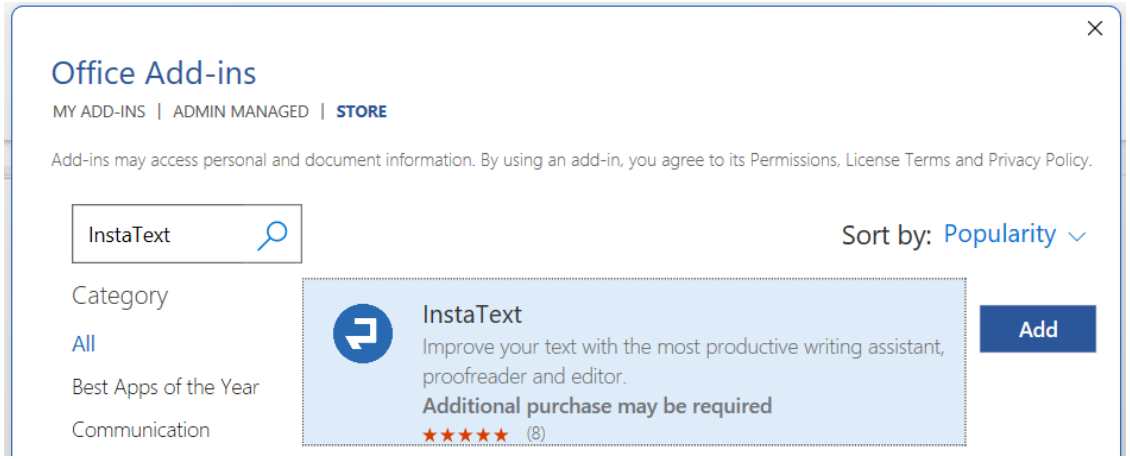


Ne pozabimo pri tem vklopiti funkcije ***All Markup*** (v meniju *Review*).

InstaText v Microsoft Word: namestitev

Izberemo:

- ❑ **File → Get Add-ins**
- ❑ **Store → Add**

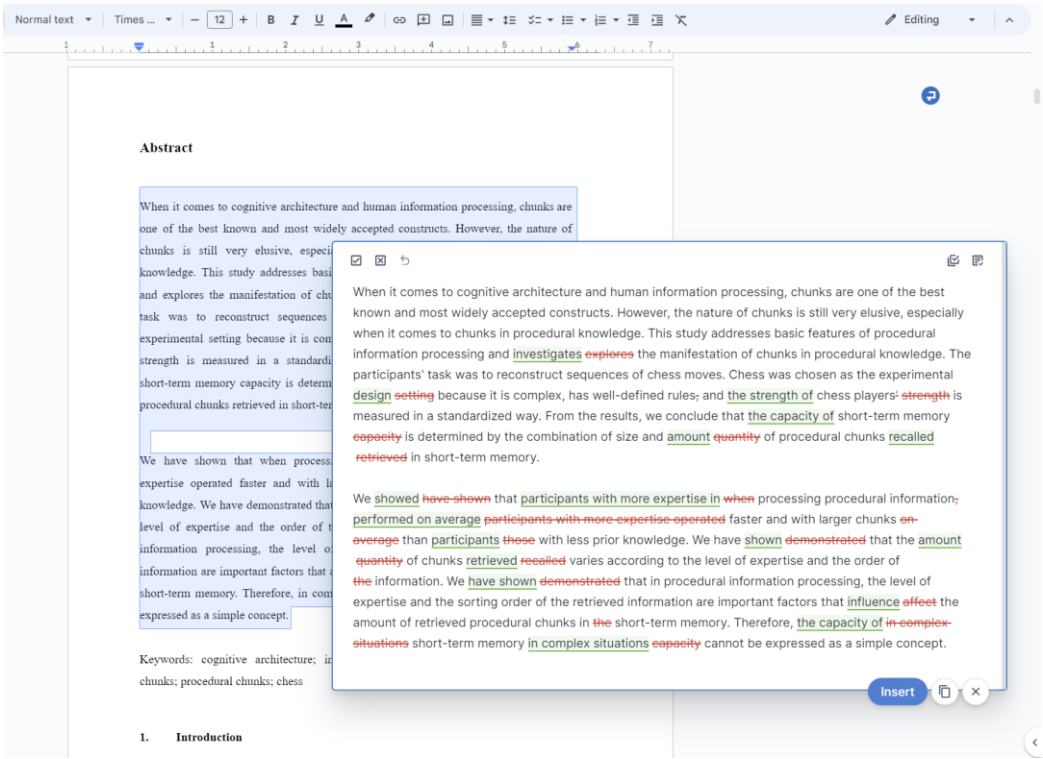


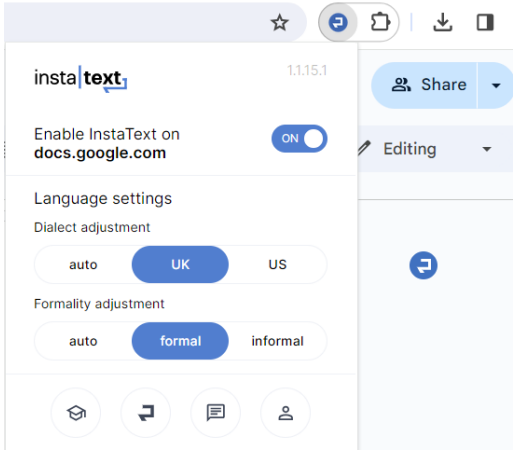
- ✓ Word on Windows (Microsoft 365)
- ✓ **Office 2016, Office 2019, Office 2021** → **retail perpetual** različica, vsaj **Version 2208** (ali več)
- ✓ Word 2019 or later on Mac
- ✓ Word on the web
- ✓ Word on iPad

Nadgradnja: **File → Account**

InstaText v Google Docs

Google Docs je priljubljeno orodje med raziskovalci, saj omogoča enostavno sodelovanje med soavtorji, avtomatsko hranjenje različic dokumenta, kompatibilnost z Wordom itd.





Add InstaText to Chrome FREE

Add InstaText to Edge FREE

InstaText kot razširitev brskalnika

InstaText Extension omogoča uporabo InstaTexta v priljubljenih aplikacijah.

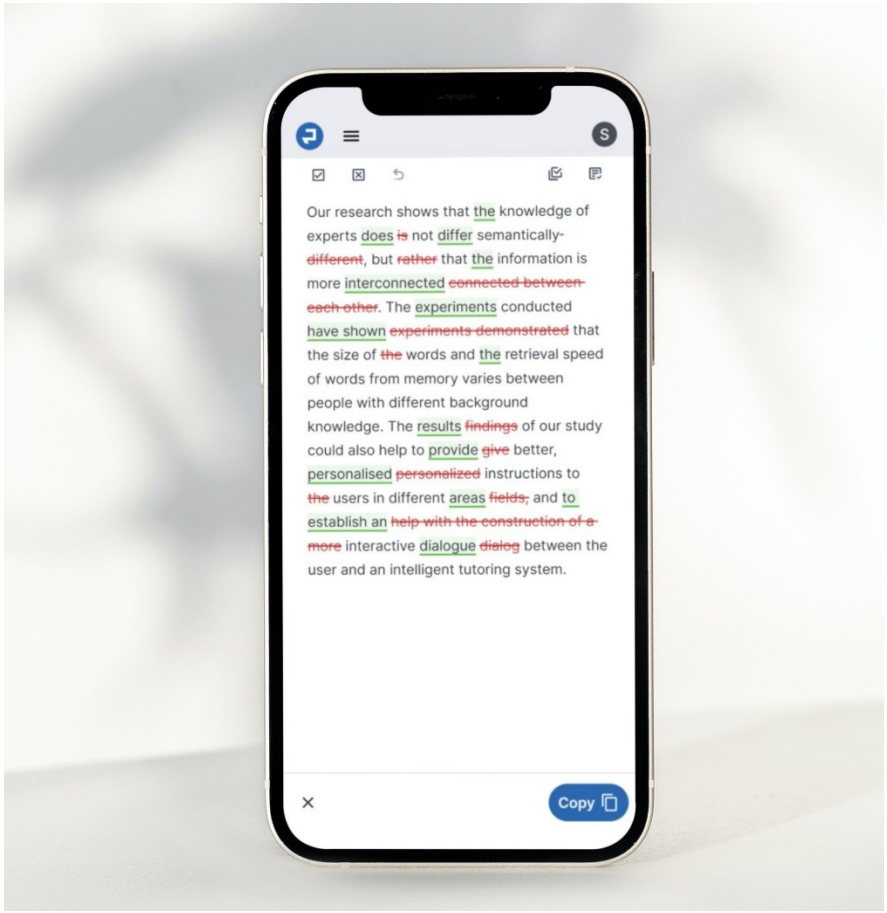
InstaText na mobilnih napravah

InstaText je na voljo tudi v brskalnikih na mobilnih napravah. Priporočamo Chrome.



Kaj pa primerjava: InstaText vs. Grammarly

spellcheckers ⟷ grammarly ⟷ instatext

QUANTITY AND DEPTH OF IDEAS FOR TEXT IMPROVEMENT

Our research shows that knowledge of experts is not semantically different, but rather that information is more connected between each other. The conducted experiments demonstrated that the size of the procedural chunks and retrieval speed of chunks varies between people with different background knowledge. We unequivocally demonstrated that amount of recalled chunks varies according to knowledge and order of information.

grammarly

Our research shows that the knowledge of the experts does ~~is~~ not differ semantically ~~different~~, but ~~rather~~ that information tends to be linked ~~is more connected between each other~~. The experiments conducted have shown ~~experiments demonstrated~~ that the size of the procedural chunks and the retrieval speed of the chunks varies between people with different background knowledge. We have clearly shown ~~unequivocally demonstrated~~ that the amount of retrieved ~~recalled~~ chunks varies according to knowledge and the order of the information.

instatext

"The thing about Grammarly, though, is that it's a good ***proofreader***, but not an ***editor***. And, as any skilled writer will be happy to tell you, the editing is the secret."

— Jim Stonos, *writer and editor*

https://makersaid.com/instatext-review/

Uporabniki o prednostih InstaTexta

Kaj so uporabniki InstaTexta izpostavili kot najpomembnejše prednosti?

- ✓ Improve my texts **interactively** and **in real time**.
- ✓ Express my ideas **clearly** and **concisely**.
- ✓ Significantly **increase acceptance rates** and **shorten the time to publication**.
- ✓ Get more funding with **successful project proposals**.
- ✓ Minimize my **costs** for external editing and proofreading.
- ✓ Rewrite my texts in a **new, original way**.

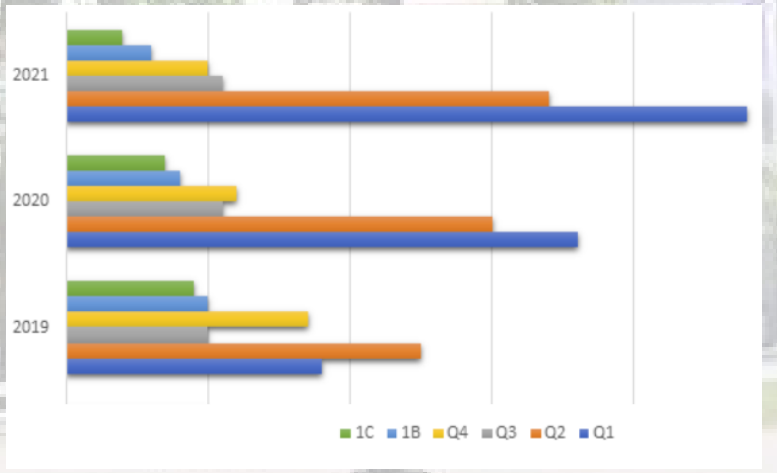
University *of Ljubljana*

★★★★★

Last year our faculty ordered a full-year license for all staff, and after one year we find that the number of high-quality articles has doubled and the volume of all articles has increased. Without exception, all staff members are very enthusiastic about the application and can no longer imagine doing scientific work without it...

-- Dr. Matej Dolenec, Associate Professor, University of Ljubljana



★★★★★

InstaText was very helpful for me and my students. With its help we have published articles in several scientific journals with high impact factors.

Dr. Urška Vrabič Brodnjak
University Professor

★★★★★

I find InstaText very helpful. It makes me much faster in writing papers. I'm a perfectionist and usually spend (way too) much time finding the right words and making sure that sentences are easily readable even if the concepts are arbitrarily complicated. InstaText makes my life easier. I recommend it to any PhD student or researcher, whether a native English speaker or not.

Giulia Guidi
PhD Student, University of California, Berkeley

★★★★★

I am a translator and proofreader by profession and have tried many editing tools. It's not an exaggeration to say that all the other apps I've used so far don't come close to InstaText. It is literally innovative and revolutionary and has taken the editing game to a new level, leaving other competitors in the dust.

Dr. Ghodrat Hassani
Researcher in Translation Studies
